

CH-05 Safety Cable

Chauvet encourages customers to make safety a priority by utilizing the right clamps and cables for their lighting applications. Every fixture that is hung should use a safety cable.

Highlights

- Steel cable ensures fixtures don't fall
- Includes a carabiner to safely hook onto most fixtures
- Designed to support a temporary load

Specifications

- Weight: 0.1 lb (0.04 kg)
- Load Capacity: 60 lb (25 kg)
