

# ChamSys QuickQ Lighting Console

Quick is the keyword for this easy-to-use, intuitive console, perfect for smaller lighting systems and programmers of all skill levels.

# **Q**uickly Learn.

There's no need to have any experience with lighting. With a large 9.7-inch touch screen, helpful prompts and videos, and a smart phone-like interface, you can learn the console quickly, design a light show, save it and play it again and again.

# **Q**uickly Program.

The console has easy-to-understand buttons and faders, simple colour selection and intensity control tools, a large touch screen with zooming and scrolling at your fingertips, as well as a simple cue/chase system for playback. The QuickQ interface easily leads you through setup, programming and operation of the console.

The console has free downloadable offline programming software available for Mac and Windows that includes the fully rendered MagicVis visualiser. You can program your show using the QuickQ Designer software on your computer, save it onto a flash drive and load it onto the QuickQ console.

# **Q**uickly Connect.

The console can automatically detect, patch and configure RDM compliant fixtures such as the CHAUVET Professional Ovation, COLORado and COLORdash ranges.

QuickQ features in-built wifi capabilities enabling remote connection to the free QuickQ Remote app available on iOS, Android and Windows tablets and phones. Begin to plug and play by simply scanning the QR code on the console display.

# **Q**uickly See The Quality.

QuickQ is powered by the world renowned ChamSys operating system and cue engine, and comes with the support you've come to expect from an industry leader. The console uses ChamSys' extensive and continuously updated personality library with over 26,000 personalities.

# **Q**uickly Progress.

With core ChamSys philosophies at the heart of the product, QuickQ consoles are show compatible with our more advanced MagicQ line of consoles, enabling users to progress freely throughout the ChamSys range.

# QuickQ Key Features

#### Design

- Simple user interface
- Easy navigation
- · Large touch screen with easy to understand and intuitive graphical interface
- · User prompts through setup, programming and operation

#### User Interface

- · Modeled on smart phone icon interface and gesture support
- · Intuitive interface allowing simple control of all fixture attributes
- · Supports pinching for zooming and scrolling
- · The remote app is identical to that on the console display so that you can easily swap between the two

## Playback Faders

- · Dedicated Grand Master fader
- Dedicated Cue Stack Control section
- · OuickO 10 has one Cue Stack and two Chase faders
- · QuickQ 20 and QuickQ 30 have 10 multi-purpose Cue Stack/Chase faders
- · Playbacks compatible with and aid progression towards MagicQ

#### Fixture Faders

- · Fader for Intensity Control
- Flash button
- · Fixture, Group and Cue modes
- · RGB LED shows current mode/state
- · 20 fixture faders on QuickQ 10 and QuickQ 20
- · 40 fixture faders on QuickQ 30

#### Networking

· QuickQ supports output of DMX over network via ArtNet/sACN/Pathport

#### **Colour Control**

- · A dedicated "colour control area" with Hue and Saturation encoders, and a pair of additional buttons for colour control
- · Select from in-built palettes and gel libraries using the touch screen

## **Console Output Capacity**

· No limit on number of fixtures, only by number of universes supported

#### Ports

- · 2 USB ports for loading and saving shows
- Audio input and output
- · In-built WIFI port for simple connection of tablets and smart phones

## **Software Features**

- RDM Autopatch
- HSV Colour Mixing
- Colour Picker
- Built-in FX
- Chase and Cue Support
- Execute Window
- Audio Triggering
- Tap to Time
- Software Upgrade/Downgrade
- · Easy Fixture Personality Update

- Attribute Encoders
- Multiple Cue Stacks
- MIDI and OSC Triggers
- · MIDI Timecode Input
- Pixel based FX

## Android and Apple iOS App

Plug and play by taking a picture of the console display QR code to get started.

\*Shown with

included tablet holder.

#### Offline Software

- Offline editor available for both Windows and Mac
- Easy Upgrades
- · Includes MagicVis visualiser
- · Replicates entire QuickQ console software excluding output

Visit ChamsysQuickQ.com

to download the offline software

# QuickQ Rack

QuickQ Rack is a small rack mountable version of the QuickQ console designed for installations. It features the same operating system as QuickQ series consoles, but is designed to operate as a remote system without physical user control.

Supporting four universes, QuickQ Rack is ideal for installations, control rooms and bars. The unit can be used as a desktop box or rack mounted with the included rack ears.

#### Features

- Ten Scene Buttons
- Four Universes
- · Two RDM 5-pin DMX Outputs
- Inbuilt Wi-Fi for programming and remote control
- Four 10 scene ports for connection of up to forty 10 Scene wall plates
- Four remote input ports
- · Same software as QuickQ Consoles
- Simple Hot-Takeover mode allowing external console to take control of connected fixtures

Shown with included rack ears.
