
General Description

The SB901A is a rechargeable lithium-ion battery for Shure products that specify its use.

Inserting the Battery

Connect the battery cable to the device and place in the battery compartment.

WARNING

- Battery packs may explode or release toxic materials. Risk of fire or burns. Do not open, crush, modify, disassemble, heat above 140°F (60°C), or incinerate
- Follow instructions from manufacturer
- Never put batteries in mouth. If swallowed, contact your physician or local poison control center
- Do not short circuit; may cause burns or catch fire
- Do not charge or use battery packs with other than specified Shure products
- Dispose of battery packs properly. Check with local vendor for proper disposal of used battery packs

Storing Batteries

If batteries are to be stored for more than eight days, they should be placed into a temperature controlled storage area. Recommended battery storage temperature is 10 to 25°C (50 to 77°F).

Specifications

Charge Voltage

4.2 V (±0.05 V)

Charge Current

610 mA

Nominal Voltage

3.7 V

Nominal Capacity

1 Ah

Housing

PVC Wrap

Charging Temperature Range

0°C to 45°C

Weight

0.021 kg

Dimensions

7 x 34 x 50 mm, H x W x D

Certifications

This product meets the Essential Requirements of all relevant European directives and is eligible for CE marking.

Please follow your regional recycling scheme for batteries, packaging, and electronic waste.
